

SINGLE TERRY COMPUTERIZED JACQUARD

KNITTING MACHINE

Options:

**2-Way Technique Or
3-Way Technique**

(1.6Feed or 1.4 Feed Per inch)

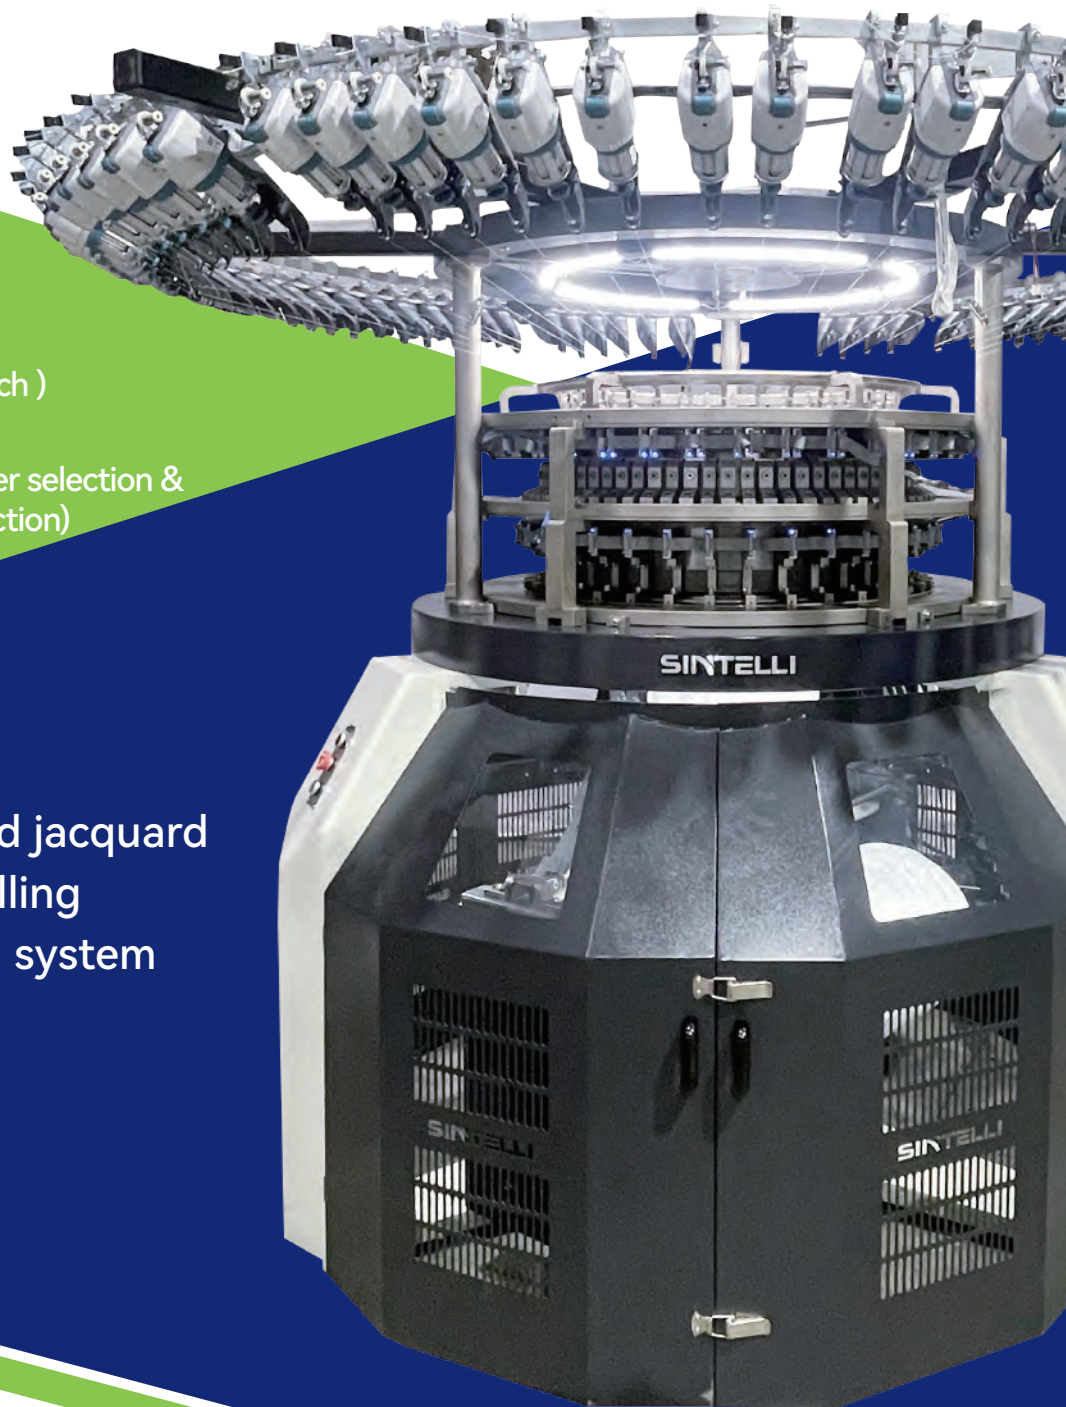

5-way technique

(3-way technique dial sinker selection &
2-way cylinder needle selection)

Allows for unlimited jacquard
patterns by controlling
computer jacquard system
& stored by USB.

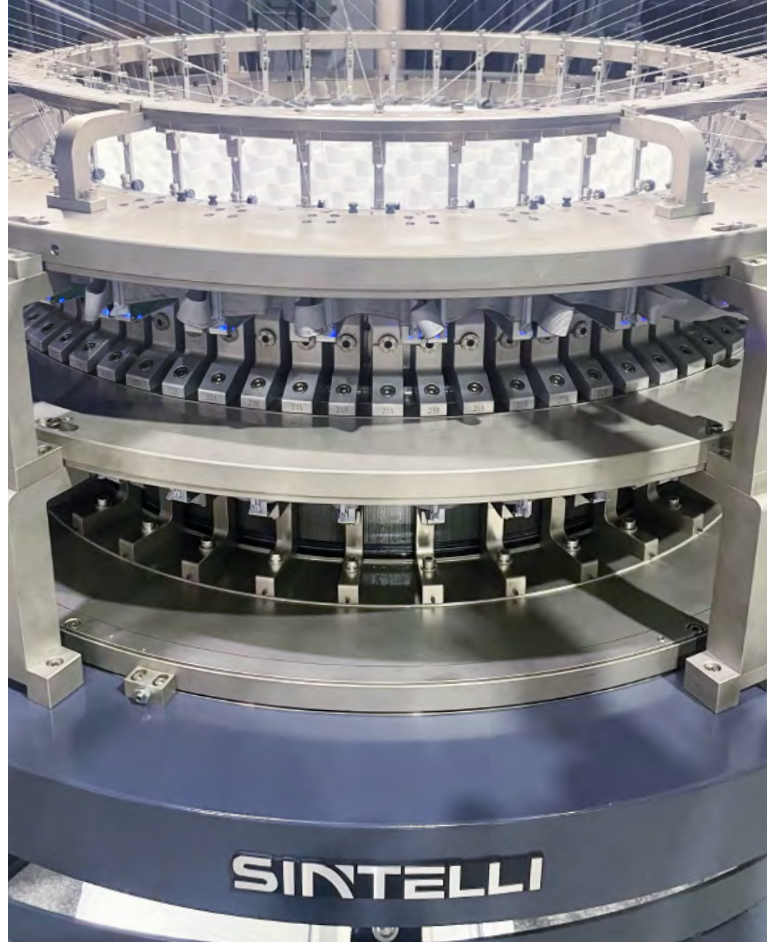

Your demand can be
customized,
welcome to make
inquiry.

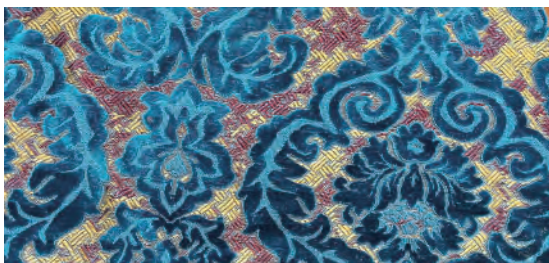

Main Features

- ※ Featured with computerized actuator, it can select needles in the cylinder. Computerized needle selection technology enables to knit various fabric patterns without limited ranges.
- ※ Any complicated design can be transferred into commands and saved on USB, then can be inputted on machine control system.
- ※ It could use the dial needle selector to push the dial jacquard jack, which achieves different height pile patterns.
- ※ Dial 3-way sinker system can make two different pile height effects, while the cylinder 2-way system can only make the cloth surface present a uniform pile height.

- ※ New 5-way technique system is consist of dial sinker 3-way selection & cylinder 2-way jacquard needle selection; the effect presented is that the cloth surface has two different pile heights and patterns, while the bottom surface can also be made into different patterns.
- ※ If equipped with Servo Taking Down system, it can reduce pattern deformation caused by uneven tension.

Wide application

Widely used in home textiles, such as carpets, prayer mats, curtain fabrics, bath towels, etc.

Technical Data

| | |
|-------------------|---------------------------|
| Model | ST-TCJ |
| Cylinder Diameter | 24"-54" |
| Machine Gauges | 18-22G |
| No. of Feeders | 1.2F OR 1.4F OR 1.6F/INCH |
| Speed | 12-18RPM |
